EYEYAH!

TEACHERS' TOOLKIT OVERVIEW

ISSUE 03: **TRASH**

Introduction

Each toolkit is a collection of 10 - 13 thought-provoking artworks supported by talking points and activities. Worksheets, slides, animations and activity resources are all available with the toolkit. Each toolkit also has a handy chart that identifies which classes each artwork could apply to in the MOE and IB syllabi.

Approach

A 'SEE, THINK, WONDER' approach is laid out for every artwork to spark conversation in the classroom and generate child-led learning. Each artwork ends with a 3,2,1 reflection for students to consolidate everything they have learnt and reflect on what to do with their new knowledge.

[EXAMPLE]
SEE, THINK, WONDER

What do you SEE?

- Do you see the different characters?
- How many of them do you see?
- What do you see in the background?

What do you THINK about what you see?

- What do you think is happening to the characters?
- Why do you think they are so upset?

What does the artwork make you WONDER?

- Do you wonder what we can do about global warming?

TEACHERS' TOOLKIT OVERVIEW

ISSUE 03: TRASH

Trash

Students are taken on a journey to learn about waste and pollution. The toolkit is split into four modules:

1) Trash in the Home
2) What Happens to Trash
3) What if we do Nothing
4) Make a Change

Learning outcomes:

• Follow the journey of trash and learn about its impact on our lives and on the environment

• Understand the importance of reusing, reducing and recycling

• Find out more about climate change and what preventative actions we can take

• Find out more about deforestation

• Understand the effects litter has on wildlife

• Find out what we can do in our home and at school to reduce trash and litter

Includes:

• 12 'See, Think, Wonder' themed lessons.

• 12 worksheets
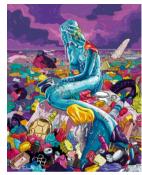

• 12 in-class activities

• 7 animations

SOME ARTWORKS INCLUDE:
